

SPRING 55 THETA

Single head sawing machine with \varnothing 550 mm front blade and electronic cutting angle control.

The machine consists of two large single block frames: the machine bed in normalised electrowelded steel and the cutting head unit in cast iron.

This arrangement eliminates any possible problem encountered when assembling the mechanical parts; in addition the structure acquires extreme solidity which allows it to withstand the stresses that arise during machining.

The head drive components are housed in the rear part of the sawing machine; this has allowed openings to be made on the work table that allow offcuts to be evacuated downwards during cutting operations.

| c | |
|---|---|
| B | A |

| A (mm) | B (mm) | C (mm) | Kg |
|--------|--------|--------|-----|
| 1106 | 1393 | 1563 | 790 |

Technical characteristics:

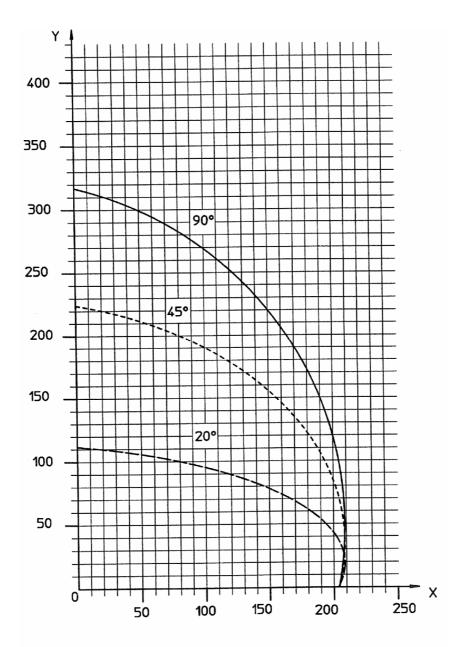

- Tungsten carbide \varnothing 550 mm saw blade
- Oleopneumatic saw blade advance (adjustable blade exit speed quick return)
- Adjustable end of stroke blade exit
- Cutting angle from 20°Lh to 20°Rh on horizontal axis
- Axis movement by DC motor and worm screw/scroll that guarantees high long term precision
- Axis position reading by encoder
- Integral guard kit with automatic closing
- 2 pneumatic telescopic horizontal vices and 2 vertical vices
- Microdrop cutting lubrication using pure oil
- Set up for the installation of chips and fumes collectors
- Chips collected in dedicated drawer
- Motor tungsten carbide saw blade transmission by belt
- Double working pressure servo-controlled in low pressure
- Working pressure: 7 bar
- Total dimensions 1105 x 1395 x 1565h mm, weight 790 Kg.
- Saw blade motor, three phase 4 HP (2.94 Kw) 2800 rpm. eurovoltage 230/400V– 50Hz; 275/480V – 60 Hz).
- Saw blade holding spindle \varnothing 32
- Work cycle air consumption 13 NI

CHOPPER

- Industrial type numerical control
- Easy to read back-lit alphanumerical display
- Angle setting positioner with cut counter function

CUTTING DIAGRAMM

STANDARD ACCESSORIES:

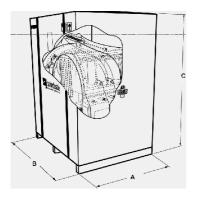

| n° | Description: | Code |
|----|--|------|
| 1 | arnothing 550 mm tungsten carbide saw blade | |
| | Micro-drop blade lubrification system using pure oil | |
| 2 | Vertical vices | |
| 2 | Telescopic horizontal vices | |
| 1 | Integral guard system | |
| | Compressed air gun with spiral hose (for machine cleaning) | |
| | Set up for forced evacuation of chips and fumes collectors | |
| | Carton pallet packing with heat-shrink plastic bag | |

OPTIONALS:

| n° | Description | Code |
|----|---|------------------|
| 1 | Set of calmping supports (profile type to be specified) | On estimate |
| | Discharge roller table with length stop: manual, displayed, controlled | See roller table |
| 1 | 3000mm cutting length | PR 24201 |
| 1 | 4200 mm cutting length | PR 25170 |
| 1 | 6000mm cutting length | PR 25213 |
| | Loading roller table with vertical rollers | |
| 1 | 3000mm cutting length | PR 22077 |
| 1 | 4200 mm cutting length | PR 25169 |
| 1 | Additional roller for roller tables | PR 22166 |
| | Additional charge for special voltage and cycles Standad motor 230/400V three-phase 50Hz | ZG 79250 |
| | Additional charge for plant version UL-CSA | ZG 79158 |
| | (Tha additional charge includes the plant with cables and special | |
| | components) | |
| | Carton packing | FF 74188 |
| | Crate packing | FC 74189 |

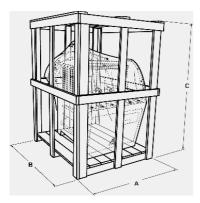

Carton pallet packing with heat-shrink plastic bag:

| A (mm) | B (mm) | C (mm) | Kg |
|--------|--------|--------|-----|
| 1130 | 1040 | 1600 | 810 |

Crate packing:

| A (mm) | B (mm) | C (mm) | Kg |
|--------|--------|--------|-----|
| | | | 840 |
