

FULCRUM PLUS

Assembly bench with manually rotating (360°) worktable for testing frames, tilting (85°).

A(mm)	B(mm)	C(mm)	Kg
2000	1300 (2150)	2300 (1100)	290

Technical characteristics:

- Highly robust bench allowing heavyweight frames to be supported (Kg 180)
- Pneumatic turning over 0/85°
- Rotation through 360° with pneumatic locking
- Crushing prevention system in platform descent phase
- N° 4 collets for the stop locking in order to permit the inspection
- Roller bar fold-up type
- Max dimensions profile to test: mm 1800 x mm 1800 S105
- Min. dimensions panel 300x300 mm
- Equiped with filter and general pressure regulator
- Equiped with pressure reducing valve with monometer to regulate the force of profile clamping
- The rounded surface of the gaskets on which the frame rests reduces to the minimum the risk of damaging the profiles being cut
- Supplied of n° 3 joints with quick coupling, italian type, for tool

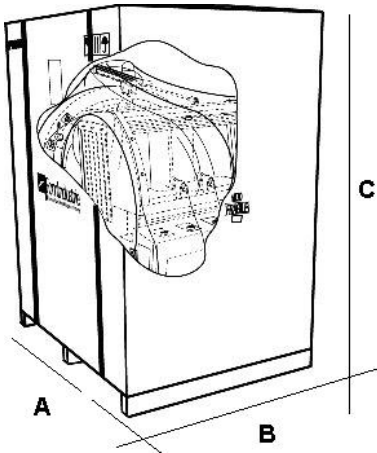

STANDARD ACCESSORIES:

Description
Air network for pneumatic tools
Pneumatic turning over (0/85°)
Box for tools, bolts and screw
